

Electronic Balance FA2204E

1. High precision magnetic sensor system
2. Round stainless steel weighing platform
3. Auto zero setting and Tare
4. Counting and Unit conversion
5. Outside calibration
6. Net weight and Stability indication
7. Bubble level and adjustable feet

Capacity	220g
Division	0.0001g (0.1mg)
Minimum Weight	0.0004g
Power	DC with supplied 220V/50Hz AC adapter
Display	7 digit backlit LCD
Pan Size	80 mm diameter
Repeatability	±0.2mg
Linearity	±0.3mg
Sensitivity Drift	±0.1mg

Distributor:

AWR Smith Process Instrumentation cc
